2021 Pricing From Digital Yacht

Dec 21, 2020 09:10 GMT

Digital Yacht 2021 Euro Pricelist Now Available

Dear Partner

Our 2021 EURO pricelist is now available to download from [HERE](#) or click on the download link below.

For users requiring an Excel version, please download from [HERE](#).

Most importantly, the situation regarding BREXIT for our EU Partners remains unclear. We have mitigated issues with our new European office -

details [HERE](#). Prices and delivery conditions from the new facility will be identical but without a customs border or potential tariffs. Please ensure you set up the new details asap to prevent any issues with shipments in the New Year. If our UK Office has back orders for you in 2021, we will contact you prior to shipping to amend any details and transfer if required to the new facility.

There are a few minor price changes on our 2021 list so please check carefully as these will be applicable for orders received after 4/1/2021. There are also some new items introduced over the last few months including:

- LANLINK - A new NMEA gateway which converts data for an ethernet network - ideal for use with our 4G Connect so you have one network on board the boat with internet and NMEA data. Both NMEA 0183 and NMEA 2000 variants are available - scheduled to start shipping Jan 2021 and a full dealer pack will follow shortly
- Aqua Compact Pro PCs - New 10th generation Intel processors with faster performance and networking and lower power consumption plus new S117 and S124 LCD monitors
- NavDoctor - stand alone NMEA 2000 diagnostics tool and monitor
- JB1 - simple NMEA 0183 power and data junction box ideal for Pro and DIY installers

We've more exciting new products scheduled for Q1 2021 too. Thank you for your support during a challenging Covid year. Fingers crossed that 2021 will bring a stable and safe recovery for everyone

Above all, stay safe, happy and healthy.

the Digital Yacht team
