Digital Yacht 2021 Pricing & New Products

Dear Partner

Our UK GBP 2021 pricelist is now available to download from [HERE](#) or click on the download link below.

For users requiring an Excel version, please download from [HERE](#). Most prices remain unchanged and we've highlighted in red any new product announcements from the past few months and also any price changes which will be applicable for orders shipping from 4th Jan 2021. Key new items

introduced over the last few months include:

- LANLINK - A new NMEA gateway which converts data for an ethernet network - ideal for use with our 4G Connect so you have one network on board the boat with internet and NMEA data. Both NMEA 0183 and NMEA 2000 variants are available - scheduled to start shipping Jan 2021 and a full dealer pack will follow shortly
- Aqua Compact Pro PCs - New 10th generation Intel processors with faster performance and networking and lower power consumption plus new S117 and S124 LCD monitors
- NavDoctor - stand alone NMEA 2000 diagnostics tool and monitor
- JB1 - simple NMEA 0183 power and data junction box ideal for Pro and DIY installers

We've more exciting new products scheduled for Q1 2021 too. Thank you for your support during a challenging Covid year. Fingers crossed that 2021 will bring a stable and safe recovery for everyone
