Digital Yacht at METS with DAME nomination and new products

Dear Partner

Digital Yacht will be exhibiting at METS 2019 in Hall 1, Booth 434. Our TriNav GPS160 Positioning Sensor with MOB capability has been nominated for a DAME Design Award. There's a short video walk through on this exciting new product below:

[Watch video on YouTube here](#)

We'll also be introducing new products including:

iAISTX - A low cost, high performance wireless Class B transponder designed for use with popular iPad and tablet apps like Navionics. It's designed for the growing number of boaters using apps now Navionics have integrated real-time AIS overlays

Seacosense - A new range of easy to install environmental sensors with NMEA 2000 and wireless connectivity designed to monitor salinity, pH, turbidity and temperature.

WL510R - Hi power wireless internet through marina and shore hot-spots. This new model features an integrated router for a neat one box solution and wifi connectivity up to 5-7NM

You can download a new product information pack from [HERE](#) or click on the download link below. We look forward to seeing you at METS.
