Santa's arrived with guidance by Digital Yacht's Nomad AIS!

For release in Christmas gifts or ideas section

Digital Yacht's Nomad is a full function Class B AIS transponder that is portable and provides a wireless interface to an iPad or tablet for real time GPS and AIS navigation.

It ticks all the boxes for charter skippers as well as boat owners who don't want the hassle of a dedicated electronics installation. Simply power up Nomad from any USB outlet or battery pack, connect the supplied 25cm

portable antenna and connect your tablet. You'll transform your smart device into a full function navigation system with a choice of 100s of different charting apps. As a Class B transponder, you're also sending your position and identity to other AIS equipped vessels for maximum safety and security.

List price is £475 but readers can get a 20% discount by entering promo code XMAS20 online. Further details at www.digitalyacht.co.uk or call 01179 55 44 74
